In addition to the list of documents, every part will contain a subject-index, and an introduction noting the unpublished records of meetings and sound recordings deposited in the Archives of the United Nations, the press releases concerning meetings, and certain supplementary information.

Part 4 of the *Check List of United Nations Documents* comprises the documents of the Trusteeship Council. This first number of Part 4 lists the documents of the Council for its first and second sessions 1947/48, and its petitions series for the year 1947.

The user of this volume will find it more helpful if he first reads carefully the explanations to the Introduction, the Check List, and the Subject-Index, and observes especially that in the Subject-Index all references to records of meetings are made to the section (§) numbers of the Introduction, and that the Check List may be used independently of the Introduction during an inventory of document holdings.

## INTRODUCTION

## Explanation

The Introduction describes briefly each ad hoc Committee of the Trusteeship Council, session by session, by including the date of its appointment, citing its terms of reference, naming its members and officers (if known), listing its reports and general document series symbol (if any), and tabulating its meeting records. The Introduction describes in like manner the Sub-Committees of these Committees, and includes also tables of plenary meeting records for each session of the Council itself. The tables indicate both published and unpublished meeting records and related press releases. Since drafts for the published meeting records should be deposited as a matter of course in the Archives of the United Nations, the tables indicate under the heading "*Archives*" only the unpublished manuscript records deposited in the Archives ("TPV," "TSR") and the sound recordings ("X").

In the Subject-Index all citations to documents other than meeting records are made to the entry numbers of the Check List section. For citations in the Subject-Index to records of discussion in the Council and its Committees, however, reference is made directly to the appropriate section numbers and meeting numbers in the accompanying tables of this Introduction, rather than to entry numbers of the meeting records in the Check List section. It will be seen on inspection that this method of indexing is less cumbersome than referring to the entry numbers for a meeting record which appears in more than one documentary form (published verbatim and summary records of a plenary meeting and republication of the summary in the *Official Records*, for instance). This method permits indexing of meeting record material not included in the Check List section: that is, of meetings without published records, archival material not published, and press releases. Finally, it permits bringing together in one place all the relevant meeting records, published or unpublished, without intruding upon the Check List proper.

It should be noted that if it is not known to the Documents Index Unit how many meetings of a body were held, no meeting numbers are given, or a plus mark (+) is used to indicate that it is known that further meetings were held, but their number and date are unrecorded.

INTRODUCTION

Establishment of the Trusteeship Council

§1. The Trusteeship Council, one of the six principal Organs of the United Nations, is established by Article 86 of the Charter of the United Nations. The Council consists of the following Members of the United Nations: (a) those Members administering Trust Territories; (b) such of those Members mentioned by name in Article 23 of the Charter of the United Nations as are not administering Trust Territories; and (c) as many other Members elected for three-year terms by the General Assembly as may be necessary to ensure that the total number of members of the Trusteeship Council is equally divided between those Members of the United Nations which administer Trust Territories and those which do not.

After the approval of the first Trusteeship Agreements by the General Assembly at its sixty-second plenary meeting, 13 December 1946, the conditions necessary for the constitution of the Trusteeship Council could be fulfilled. Thus, in accordance with Article 86a of the Charter, Australia, Belgium, France, New Zealand and the United Kingdom became members of the Council. By application of Article 86b, China, the Union of Soviet Socialist Republics and the United States of America also became members of the Council. In compliance with Article 86c, the General Assembly, at its sixty-third plenary meeting, 14 December 1946, elected Mexico and Iraq as members of the Council for a term of three years.

As a result of the entry into force of the Trusteeship Agreement for the Pacific Islands<sup>1</sup> on 18 July 1947, the United States of America was entrusted with the administration of a Trust Territory, and, in order therefore to ensure that the total number of members of the Council was equally divided between those Members of the United Nations which administer Trust Territories and those which do not, the General Assembly, at its one hundred and ninth plenary meeting, 13 November 1947, elected Costa Rica and the Philippines as members of the Council for a term of three years.

<sup>1</sup> Terms of office begin on 1 January and end on 31 December of the years indicated in the table. However, the representatives of Costa Rica and the Philippines attended the second session of the Council, which started on 20 November 1947.

<sup>2</sup> The Union of Soviet Socialist Republics did not send its representative to the first session of the Council. During the second session, the representative of the Union of Soviet Socialist Republics took his place in the Council for the first time at the thirty-seventh meeting, 27 April 1948.

### Officers of the Council, 1947

§3. At the beginning of its regular session in June of every year, the Trusteeship Council elects from among the representatives of its members a President and a Vice-President, who hold office until their successors are elected. An exception was made in 1947 due to the fact that the first session of the Council convened in March and not in June, and the following officers were elected: *President*, Mr. Francis Bowes Sayre (United States of America), elected at the first plenary meeting of the first session of the Council, 26 March 1947. *Vice-President*, Sir Carl August Berendsen (New Zealand), elected at the second plenary meeting of the first session of the Council, 26 March 1947.

### Plenary Meeting Records of the First Session

§4. The first session, plenary meetings 1 to 27, was held in Lake Success, New York, from 26 March to 28 April 1947.

## CHECK LIST: EXPLANATION

### CHECK LIST

#### Explanation

**ENTRY NUMBER** (first column). Documents will be referred to by entry numbers in the index to this check list. Entry numbers do not appear on the documents and should not be used in citations.

**LANGUAGE OF ISSUE** (second column). The language editions in which a document is issued are indicated as English (E), French (F), Spanish (S), Russian (R), Chinese (C), or bilingual English-French (E&F) texts. Entries in *italics* indicate printed language texts.

**DOCUMENT SYMBOL AND SHORT TITLE** (third column). The official *document symbol number* is in **boldface**. This number should be used in citing documents. In the case of publications without document symbol numbers, titles should be cited together with the session number, issue number, supplement number, and volume number, whichever is included in the entry. *Title entries* have been standardized and shortened or expanded in order to clarify the meaning of the titles and the authorship of the documents, so the entries do not always conform literally to the actual documentary titles. Titles in *italics* indicate printed texts. *Collation* shows the pagination of the English or bilingual English-French text only. The date appearing on each document below the document symbol number is usually the date of registration of the documentary text with the Bureau of Documents for duplication and translation, and should be the same in all language texts. The date of registration closes each entry. (The date of publication of printed texts, usually appearing on the back covers, is not included in the entries). *Corrigenda* and *addenda* are usually grouped with the parent document in the same entry. *Corrigenda* are corrections of errors in the texts, titles, dates or classifications of documents, emendations of translations, and additions of omitted text. *Addenda* include supplementary material, such as annexes, appendices, tables, charts, diagrams and additional communications, clauses and paragraphs. *Revisions* are texts revised through formal amendment, or new editions prepared by the submitting Delegation or by the Secretariat. This check list indicates cases in which only parts of documents are published in revised form.

**REPUBLICATION NOTES** indicate republication of whole documents in other documents or in the *Official Records*, except that in the case of resolutions only their republication in collected sets is indicated, and in the case of draft resolutions no attempt is made to note inclusion of the texts in verbatim records of meetings.

**RESTRICTED DOCUMENTS**, indicated by the black dot (●) before the document number, are documents whose circulation is limited primarily to members of the issuing body and the related section of the Secretariat.

**REFERENCES TO INTRODUCTION**. The relevant sections (§§) of the Introduction which describe the appointment, membership, officers, reports and the records of meetings of Committees and Sub-Committees of the Council are indicated in footnotes to the documents series.

## SUBJECT-INDEX

### Explanation

**Documents other than records of meetings and resolutions.** All references to these documents are made to entry numbers (e.g. 127,171,210,283,286) in the Check List, under each of which the document symbol, title, language, republication note, etc. will be found.

**Records of meetings.** All references to records of meetings are made to the tables of meetings in the Introduction. The section of the Introduction containing the relevant table of meetings is indicated by a section (§) number separated by a colon (:) from the meeting numbers. Plenary meetings of the Council are indicated by the abbreviation "plen.", and Committee meetings by "cttee." Thus:

plen. §4:27; cttee §11:1

refers to the 27th meeting of the Trusteeship Council, 28 March 1947, all records of which are listed on the table of plenary meeting records of the first session in §4 in the Introduction (see page xi) and to the first meeting of the Committee on the Composition of the Visiting Mission to Western Samoa, 24 April 1947, listed in the table in §11 (see page xiv).

**Resolutions.** It is preferable to use the volume of collected resolutions for each session rather than the individual mimeographed resolutions issued prior to the establishment of the resolution number. Individual resolutions under subject are referred to simply by resolution number, e.g. Resol. 3(I), Resol. 14(II), etc. . . . In order to locate the proper entry number in the check list, consult the listings in the index under Trusteeship Council: Resolutions, looking for the proper session and then the number of the resolution sought. Both collected sets and individually issued resolutions will be found easily under this subject heading.

**Abbreviations.** See list of abbreviations, p. viii.

**Session Indicators.** In the case of subjects discussed at more than one session of the Council, Roman numerals are used to indicate the session:

I, II indicate the first and second sessions of the Council.
